The Faculty of Tourism-Montenegro Tourism School was founded in 2004 as the first private institution of higher education in Montenegro, and since May 2006 it is a part of the University Mediterranean. It was established in order to tackle high-quality workforce deficit that is becoming a critical factor for further development of tourism, especially when it comes to managerial level. Since then, the Faculty has grown into an eminent academic institution specialized in the education of highly educated professionals in the field of tourism and hotel industry. It developed study programs at all levels of studies with the ambition to further develop and improve them in the coming period and to keep the leading position in the field of higher education in Montenegro.

Courses are run through an interactive teacher–student communication, lectures of well-known guest lecturers, participation of students in the project activities of the Faculty and student practice in renowned hotels in Montenegro. During their studies students are able to acquire various types of professional qualifications, particularly in the field of tourism and hotel industry, such as: tourism technician, agency clerk, receptionist, tour guide, sommelier, ECDL (European Computer Driving License) certificate and Amadeus certificate.

The Faculty of Business Studies-Montenegro Business School (MBS) was founded in 2005 as the first faculty for the training of highly qualified workforce in the area of financial and marketing management in Montenegro. The Faculty is committed to the education of highly skilled experts who will successfully meet the contemporary business and social challenges, and in that way it raises the quality of higher education in the national and regional environment, building the image of market-oriented and socially responsible organization. The advantage of our faculty is reflected in the education of highly qualified workforce in the field of international marketing, public relations (PR), finance, banking and insurance, and accounting and auditing. This type of specialized professional education is unique in Montenegro’s system of higher education. The practical trainings which are mandatory and within which our students are given the opportunity to actively participate in and follow modern trends in the field of marketing and finance, are making our faculty the first and only faculty in Montenegro with such a practice.

FACULTY OF INFORMATION TECHNOLOGY

The Faculty of Information Technology, at a time of transition and rapid transformation into information society, has a special significance and plays a role in educating experts who are necessary and sought for the further development and expansion of information technology achievements. Realizing the need for information technology engineers, and opportunities for quick employment of graduates and very high salaries that are offered for this job, the Faculty of Information Technology beginning with academic year 2006/2007 offers undergraduate and postgraduate (specialist and master) studies for the study program Information Technology. Following international standards and practices of recognized world universities, we have created a curriculum of Information Technology Studies which is in full compliance with the international standards required by the two pre-eminent global professional associations in the field of Electrical Engineering and Computing - IEEE (Institute of Electrical and Electronics Engineers) and ACM (Association for Computing Machinery).

In this way, we harmonized our study program with study programs of universities in Europe and the world, thus allowing students to spend a part of their studies at other universities / faculties abroad (student mobility programs). Curriculums, ways of delivering lectures and learning outcomes meet the requirements of future employers and allow students to instantly undertake, without additional training, tasks regarding the development of complex information / software systems. By solving concrete problems, students, during their studies, acquire knowledge and skills which are needed for obtaining internationally recognized certificates in the field of information technologies: Cisco, Oracle, Microsoft and ECDL.

One of our primary goals is communication with students and national, international and academic research community. Studies at the Faculty of Information Technologies allow you to acquire knowledge and skills for your future.

**Find your place in the future of IT!**
The Faculty of Visual Arts of the Mediterranean University was founded in 2006 and it is the first private faculty in the field of art in Montenegro. The Faculty is licensed by the Ministry of Education of Montenegro and since its foundation it has successfully passed the process of re-accreditation of the study programs in accordance with national regulations twice (2008 and 2013). The quality of our syllabus is also supported by the fact that the Government of Montenegro has recognized both of the study programs at the Faculty of Visual Arts as programs of public interest. In 2014 the Faculty was evaluated highly by the European University Association (EUA), which carried out the process of External Institutional Evoluation. The Faculty of Visual Arts is a place of artistic competition in two fields of creative industries: design of visual communication and audiovisual production. During the two cycle of studies (undergraduate / BA and postgraduate / Spec Art + MA) students have the opportunity to acquire knowledge and skills in the field of classical and contemporary art disciplines. Curricula and programs that actually represent the symbiosis of art, science, IT technology and other scientific and artistic disciplines, are aligned with the most modern international trends as well as the needs of the contemporary labor market. Our students graduate with a representative portfolio which opens the door to the professions in creative industries. Thanks to our internationally recognized
diplomas, our students are also perfecting themselves abroad (Britain, Italy, France, Germany, USA, etc.) Additionally, students get to use international mobility courses during the studies, while bilateral exchange via Erasmus+ network has been available since 2016. It covers full scholarship and the cost of travel. Our third-year students Anastasija Višnjić and Aleksandar Perišić spent five months at the Academy of Fine Arts and Design in Bratislava, Slovakia, within the Erasmus+-KA107 program. Student Vladan Đurišić went to the Academy of Fine Arts in Krakow, Poland, while students Davor Golubović and Stefan Vukčević are also going to stay in Bratislava, in the academic year 2017/2018. The Faculty of Visual Arts is the first faculty in Montenegro with the implemented policy of the so-called learning outcomes of the European educational space, the first faculty in Montenegro that introduced the concept of service learning in curricula, as well as the initiator of the first professional higher education qualification in the field of art – land art artist.
I SEMESTER
1. Introduction to Audiovisual Production
2. Art and Modern Media Technologies
3. History of Art I

The Faculty of Law was founded in 2007 as one of the six organizational units of the first private university in Montenegro. Key advantages of studying at the Faculty of Law are: modern study programs, work in small groups, the combination of theory and practice, exceptional lecturers from the country and abroad, the constant availability of teachers and assistants, legal clinics and the like. The mission of the Faculty of Law is educational, pedagogical and cultural, and all attention and activities are directed towards training of students for responsible and professional work in the legal profession.
The Judicial Study Program is designed primarily for students who intend to deal with the judicial work and advocacy, as well as for those who would like to work in a prosecutor’s office, attorney general, etc., while the Commercial Law degree program is designed for students who are interested in studying law in economy and businesses - banks, various commercial companies and the like.

In order to acquire practical (applied) knowledge, during the sixth semester students are provided with practical training in the judiciary or in the economy. Our aim is that our graduates are professionals in their work, persons with high moral values and responsibility in the performance of legal profession. Therefore, quality is the main goal of existence and working of the Faculty!
INTERNATIONAL COOPERATION
AND SCHOLARSHIPS

The University actively participates in European and other student mobility programs and university staff such as: ERASMUS+, ERASMUS MUNDUS, CEEPUS, UGRAD, MEVLANA. In this way we opened the doors of our university to foreign students, but we also enabled our students to improve their knowledge and skills at the reputable universities and colleges all over Europe and the world such as:

- Mälardalen University, Sweden
- Universita degli Studi dell'Aquila, Italy
- Vrije University Amsterdam, The Netherlands
- Universität Paderborn, Germany
- Åbo Akademi University, Finland
- Sofia University St. Kliment Ohridski, Bulgaria
- Politehnica University Bucharest, Romania
- Josip Juraj Strossmayer University of Osijek, Croatia
- Universitat de les Illes Balears, Spain
- Universidad de Almeria, Spain
- Academy of Fine Arts and Design, Slovakia
- Orta Doğu Teknik Üniversitesi (Middle East Technical University), Turky
- Varna University of Management, Bulgaria
- University College of Enterprise and Administration in Lublin
- Akdeniz Üniversitesi, Turkey
- İzmir Katip Çelebi Üniversitesi, Turkey
- Ningbo Dahongying University, China
